Career Objective

Frontend developer with proven ability to collaborate effectively with team mates and senior developers while spending extra time to be mentored. Enjoy working closely with team members to ensure workloads are effectively redirected to bottlenecks and personally picking up the slack when necessary. With a passion for both personal growth and for software development, I completed 100 days of formal training in front-end development at Lexicon Utbildning. Following that I completed my three month long practical work at SWEDCON18 AB. Ready to apply my passion for coding to a talented engineering team to develop quality solutions.

TRAINING & EXPERIENCE
